Infection Control in Homeless Populations: A Critical Challenge for the People Living with HIV/AIDS

Maggie Yaddof, Environmental Health Major
Pathways and Prevention of Needle-borne Pathogens

First symposium? Here are some questions to ask presenters and learn more about their work!

1. How did you land on this topic?
2. When you look back on this experience, what will you remember as the most interesting or compelling thing you learned?
3. What are your next steps?

Follow the symposium at #BestofUW and #SPHUGSymposium
