The Executive Master of Public Health (eMPH) degree program promotes leaders in public health. This two-year, primarily online program prepares working professionals to tackle current and future public health challenges and to promote health equity and social justice. Students obtain program evaluation and management skills; research development and analysis skills; comprehensive evidence-based knowledge of current public health principles; and extensive exposure to core public health disciplines through a supportive, team-based learning approach. Our graduates are public health leaders and valued members of the health community.

HIGHLIGHTS
The eMPH Program has served the public health community for 30+ years. Students come from varied backgrounds including practice and research and have on average nine years of work experience. The two-year program offers a rich and interactive blend of online learning and on-site sessions in Seattle. Courses are taught by passionate, world-class faculty of the highly ranked University of Washington School of Public Health (U.S. News and World Report).

Upon degree completion, graduates will be able to:
• Assess community assets and needs and apply participatory approaches to solving public health problems in communities
• Develop, implement, monitor, evaluate and improve public health programs, policies and interventions
• Apply epidemiological and biostatistical methods to assess public health status and reduce mortality, morbidity and disability
• Apply environmental health principles and approaches to assess, prevent and control environmental health hazards
• Assess and address behavioral, social and cultural factors related to population health and health disparities
• Develop strategies to reduce health inequalities within communities and populations
• Apply leadership skills in managing cross-disciplinary teams and organizations to effectively address public health problems

DEGREES AND/OR CERTIFICATES OFFERED
Master of Public Health (MPH)
Graduate Certificate in Public Health Practice (PHP)
Single Course Options

APPLICANT QUALIFICATIONS
Applicants should have at least two years of professional experience. A baccalaureate degree from an accredited college or university is required, with a grade-point average of 3.0 for the last 90 quarter/60 semester hours.

At the University of Washington, diversity is integral to excellence. All qualified applicants will receive consideration without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, age, protected veteran or disabled status, or genetic information.

ACADEMIC/PROFESSIONAL OPPORTUNITIES
eMPH students immediately benefit from cohort networking, as well as the ability to apply job performance enhancing skills such as planning, organization, management, or evaluation to their organization of employment. Nearly 1,000 eMPH alumni are leaders in academia, government, health care, non-profit organizations, and industry. Professions include directors or managers of public health agencies from local to global levels; faculty members; research scientists or coordinators; managers in health care organizations; epidemiologists; health education specialists; or laboratory managers.

ADMISSIONS
Detailed instructions are at http://executivemph.uw.edu/admissions/
Submit a goal statement, GRE scores (unless you already have a graduate level degree), three letters of recommendation, transcripts, and complete a math test. International applicants may need TOEFL scores.
