**NIH Catalyst Awards**
Individuals who have completed their Ph.D., M.D., or equivalent degree and are in the early stage of their independent research careers are encouraged to apply. The awards provide up to $300,000 over 2 years of support for research, training, and career development activities.

**NIH Imperial Hypodermic**
A one-time, non-renewable $1 million award is available to support the development of a new technology or method that will significantly improve the accuracy and efficiency of data collection in clinical research.

With 2023 funding, the NIH Imperial Hypodermic program will provide up to $1 million in support for the development and implementation of a new data collection technology or method. Interested researchers are encouraged to apply online by June 30, 2023.
