

School of Public Health (SPH) RESEARCH COUNCIL

Updated 11-30-2023

Membership: Research Directors and Administrators in the SPH; SPH Associate Dean for Research; SPH Research Administrator

Charge: Support and facilitate research in the SPH, act as the focal point for communication regarding research in the SPH, and serve as an advisory group to the SPH Dean's Office on research issues. Specific activities for this group include, but are not limited to the following:

- Share effective strategies to support research across departments; identify ways to partner with and leverage ongoing mechanisms in individual departments
- Identify needs and develop and implement new school-wide strategies in response to those needs to support research in the school
- Catalyze interdisciplinary research efforts and grant applications by sharing information and linking faculty from various departments and schools
- Serve as the focal point for communication about research in the school, engaging in the following:
 - Disseminate funding opportunity notices to appropriate faculty members in the home department; serve as the point of contact for Limited Submission Opportunities and coordinate the nomination of departmental candidates
 - Disseminate research compliance and procedures information to faculty members in the home department
 - Provide information on research, research centers, and training grants in the home department as needed to the Dean's Office for reporting

Meeting Frequency: Routine quarterly meetings. Additional meetings as needed.
